PORSCHE

## Technical data

Cylinders	6
Displacement	2,995cm <sup>3</sup>
Max. power kW (PS)	260 (354)
Transmission	7-speed Porsche Doppelkupplung (PDK)
Acceleration 0–100km/h	5.3secs
Acceleration 0–100km/h with Launch Control <sup>1)</sup>	5.1secs
Fuel consumption urban in l/100km (NEDC) <sup>2)</sup>	11.3
Fuel consumption extra urban in l/100km (NEDC) <sup>2)</sup>	7.5
Fuel consumption combined in l/100km (NEDC) <sup>2)</sup>	8.9
CO <sub>2</sub> emissions combined in g/km	204
CO <sub>2</sub> emissions from fuel production and distribution in g/km Switzerland <sup>4)</sup>	47
Efficiency class Germany <sup>3)</sup>	D
Efficiency class Switzerland <sup>3)</sup>	G

## Engine, transmission, chassis and performance

Air suspension with levelling system and ride-height adjustment including Porsche Active Suspension Management (PASM)	1BK
Power steering Plus	1N3
Sport Chrono Package with mode switch	8LH
Sports tailpipes in black <i>Porsche Exclusive Manufaktur</i>	0P6

## Wheels

20-inch Macan Turbo wheels painted in Volcano Grey Metallic <i>Porsche Exclusive Manufaktur</i>	53S
--	-----

## Exterior

Volcano Grey Metallic	2H
SportDesign package including SportDesign sideskirts <i>Porsche Exclusive Manufaktur</i>	2D1
SportDesign exterior mirrors <i>Porsche Exclusive Manufaktur</i>	6FB
Sideblades painted in exterior colour	6H1
Side window trims in black (high-gloss)	QJ4
Roof rails in black (high-gloss)	3S5
Door handles painted in black (high-gloss) <i>Porsche Exclusive Manufaktur</i>	6JA
Fuel filler cap in aluminium look <i>Porsche Exclusive Manufaktur</i>	2W6

## Lights and vision

Automatically dimming mirrors	4L6
Comfort lighting package	9MB
Tinted LED main headlights including Porsche Dynamic Light System Plus (PDLS Plus) <i>Porsche Exclusive Manufaktur</i>	8JU

1) In conjunction with the optional Sport Chrono Package.

2) Data determined in accordance with the measurement method required by law. Since 01 September 2017 certain new cars have been type approved in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test procedure to measure fuel consumption and CO<sub>2</sub> emissions. From 01 September 2018, the WLTP replaced the New European Driving Cycle (NEDC). Due to the more realistic test conditions, the fuel consumption and CO<sub>2</sub> emission values determined in accordance with the WLTP will, in many cases, be higher than those determined in accordance with the NEDC. This may lead to corresponding changes in vehicle taxation from 01 September 2018. You can find more information on the difference between WLTP and NEDC at [www.porsche.com/wltp](http://www.porsche.com/wltp). Currently, we are still obliged to provide the NEDC values, irrespective of the testing method used. The additional reporting of the WLTP values is voluntary until their obligatory use. As far as new cars, (which are type approved in accordance with the WLTP) are concerned, the NEDC values will therefore be derived from the WLTP values during the transition period. To the extent that NEDC values are given as ranges, these do not relate to a single, individual car and do not constitute part of the offer. They are intended solely as a means of comparing different types of vehicle. Extra features and accessories (attachments, tyre formats etc.) can change relevant vehicle parameters such as weight, rolling resistance and aerodynamics. Additionally, weather and traffic conditions, as well as individual handling, can affect the fuel consumption, electricity consumption, CO<sub>2</sub> emissions and performance values of a car.

3) Valid in the countries listed only.

4) The average CO<sub>2</sub> emissions value of all new vehicles sold in Switzerland is 137g/km.
